About

Machine Learning enthusiast and Computer Science undergraduate at GLA University focused on AI, NLP, intelligent systems, Deep Learning, Computer Vision, and LLM-based architectures (RAG systems). Experienced in building real-time AI solutions for accessibility and automation.

Education

Bachelor of Technology (B.Tech)	2024 – Present
GLA University, Mathura	
Class XII	2024
Sumeet Rahul Goel Memorial Senior Secondary School, Agra	
Score: 96.2%	
Class X	2022
St Francis Convent School, Agra	
Score: 92.8%	

Current Coursework

B.Tech (CSE - AI and Data Analytics)

Currently pursuing specialization in Artificial Intelligence and Data Analytics with focus on Machine Learning, Deep Learning, NLP, Data Science, Computer Vision, and intelligent systems.

Projects

Drishti-AI	<u>Build in Progress</u>	—	2026
<i>AI + Computer Vision (YOLO, U-Net), ML/DL, Full Stack</i>			
- Built a real-time navigation assistant for visually impaired individuals. - Used YOLO and U-Net for object detection and scene segmentation. - Developed Flask backend with OpenCV for real-time processing. - Designed accessible frontend with audio feedback.			
Sentilytics	<u>Build in Progress</u>	—	2025
<i>NLP, Machine Learning</i>			
- Developed sentiment analysis system using TF-IDF and supervised ML models. - Performed preprocessing, feature extraction, and optimization.			
Code Dungeon	<u>Live Demo</u>	—	2025
<i>ML + LLM + RAG</i>			
- Created AI-powered coding platform for beginners. - Integrated LLM explanations with Retrieval-Augmented Generation. - Delivered contextual step-by-step coding explanations.			
NutriTrack	<u>Build in Progress</u>	—	2025
<i>Web Development, APIs</i>			
- Built nutrition tracking app with BMR calculation and allergen filtering. - Integrated APIs for personalized dietary recommendations.			

Technical Skills

Programming: Java, Python

Core AI/ML: Machine Learning, Deep Learning, NLP, Computer Vision, LLM, RAG

Frameworks/Tools: TensorFlow, PyTorch, OpenCV, Flask, Git, REST APIs, MySQL, MongoDB

Web: HTML, CSS, JavaScript

Certifications & Achievements

- 1st Runner-Up — DataDash (Data Visualization Competition)
- RDBMS Certification — Udemy
- Python for Data Science & Machine Learning — IBM
- Intel NEC Workshop — Technical Excellence
